

General Notes			
Process Flow Diagram: Production of Grupo 5			
Reactions			
$C_6H_{12}O_6 \xrightarrow{yeast} 2C_2H_5OH + 2CO_2$			
Conventions			
Entry and exit of the process		Distillation column	
Mixer		Clarifier	
Condenser		Centrifugal pump	
Reboiler		Scrubber	
Fermenter		Level Control	
Storage tank		Temperature Control	
Positive displacement pump		Flow Control
